Pekanbaru, Indonesia

A Bachelor degree of Psychology from the Islamic University of Riau. I have been learning Front-End Development and working with HTML, CSS, JavaScript, React.js, and Node.js since 2022. Additionally, I am currently attending a Full-Stack Web Developer bootcamp program to further deepen my skills in web development. As a creative and detail-oriented individual, I am eagerly seeking a full-time opportunity in the field of Full-Stack Web Development.

Project Experiences

Vrent App - From Harisenin.com   May 2023 - Oct 2023
Full Stack Developer
- Developed a remote car rental application to streamline the user's rental process from a distance.
- Engineered a user-friendly and intuitively navigable application.
- Use React, Tailwind, Sweet Alert, and Flowbite for front-end development, as well as Node.js, Express.js, MySQL, and Postman for efficient back-end solutions.

Registration Form - From Freecodecamp   May, 2023 - May, 2023
Front-End Developer
- Developed a responsive and visually appealing registration form using HTML and CSS
- Implemented best practices in web design, including form validation, user-friendly input fields, and clear error messages to ensure a seamless user experience

Startup Landing Page - From Zero To Mastery Course   Jun, 2022 - Jun, 2022
Front-End Developer
- Created a visually appealing and responsive landing page, utilizing HTML and CSS to achieve a sleek and professional design
- Implemented a stylish header with a bold and impactful headline, creating a strong visual impression for the event
- Incorporated a call-to-action button with a hover effect, directing users to learn more about the event and encouraging engagement.
